

ART^{is} **EDUCATION**

for every child,
in every school,
every day.

Art . . . For Learning | For Success | For Community

Every child in every school has the right to a well-rounded education, and the arts are an essential ingredient.

The arts promote:

- Academic and personal growth
- Critical thinking and analytical skills
- The motivation to stay in school and excel
- The health and well-being of children

Quality arts education is central to a complete education and helps develop the skills children need to make them ready for the 21st century workforce.

Is your child getting a complete education, including the arts?

The **Art *is* Education** initiative seeks to close the achievement gap by providing all students with standards-based integrated arts experiences every day. Studies show that student achievement is higher at schools with rich arts programs.
